

# BUILD AND SHRED MEAL IDEAS

## Full Recipes, Ingredients, Macros, and Calories

BUILT WITH  
**SCIENCE™**

## PREFACE

This PDF is a compilation of various meals that Built With Science members (including myself) use to hit our required calories/macros. Each meal has been categorized into “BUILD” and “SHRED” categories based on the calorie density, volume, and macronutrients of the meal.

The BUILD recipes will come in handy for those on the BUILD program since they are typically higher in calories relative to volume. Whereas the SHRED recipes will come in handy for those on the SHRED program, since they are typically lower in calories relative to their volume (keeping you full for longer with less calories).

However, keep in mind that it's the TOTAL calories/macros you hit at the end of the day that matters the most. So regardless of what program you're on, feel free to use any of the recipes within this book to hit your goals.

My recommendation is to find 4 meals/recipes within this book that you can CONSISTENTLY stick to day in and day out. These should be meals that you personally enjoy, can prep easily, and ones that you know you can adhere to week after week. You can obviously mix up these staple meals as you'd like if you get bored of them, but the key is to find a day's worth of meals that you know you can stick to.

And if you have any meals/recipes of your own that you'd like to send it to possibly be added to this book, send an email to [contact@builtwithscience.com](mailto:contact@builtwithscience.com) with the subject title “BWS Recipe”.

Enjoy!

# Starbucks Spinach Feta Wrap

## Ingredients

**1 wholegrain flatbread  
original**

**Salt and ground black  
pepper, to taste 1-  
tablespoon extra-virgin  
olive oil**

**1-cup egg whites**

**1-cup raw spinach**

**1 laughing cow triangle  
white cheddar cheese**

## Recipe

Measure out the necessary ingredients for spinach feta wrap, and keep them in separate bowls for easier prep and clean up.

1. Add the one-tablespoon of olive oil to a medium nonstick skillet and warm over medium-high heat. Add in the 1-cup of raw spinach and sauté for about 2-4 minutes until its nice and soft.
2. Add in the 1-cup of egg whites and scramble the egg whites with the sautéed spinach over medium-low eat until the eggs are fully cooked.
3. Toast the wholegrain flatbread slightly in a toaster and spread 1 laughing cow triangle white cheddar cheese onto toasted wrap.
4. Add in the sautéed spinach and cooked scrambled egg whites onto the toasted wrap, roll the wrap together tightly, and cut in half.

**Comment from Built with Science Member:** This recipe is a great weekend treat for any meal especially for breakfast while I'm running the shred program. It's light, healthy, and packed full of your necessary macros for the day. The cheese option can be changed to any cheese option, which you personally prefer.

# Protein French Toast

## Ingredients

**1.5 cups Unsweetened Cashew Milk (Silk)**

**2 slices Artesano Golden Wheat Break**

**1 scoop Whey Protein Powder - Vanilla**

**Optional Toppings – Calories and Macros Not Included**

**50 grams of blueberries**

**50 grams of strawberries**

**2 servings of fat free whip cream**

## Recipe

1. Measure out the necessary ingredients for the protein French toast, and keep them in separate bowls for easier prep and clean up.
2. Whisk together 1.5 cups of unsweetened cashew milk together with the 1 scoop of whey protein powder and put into a shallow dish.
3. Soak the Artesano bread slices thoroughly and make sure each side of the bread is covered in the batter.
4. In a medium nonstick skillet warm over medium heat and then place soaked bread slices onto the skillet for roughly around 2-3 minutes on each side until golden and cooked to perfection.
5. The toast meal preps well as long as you let it cool completely before putting into a container or eat it hot and fresh.

**Comment from Built with Science Member:**

*This recipe is a great option for either the build or shred program, just adjust the portion size when cooking the French toast. The berries and whip crème is optional and the macros and calories are not accounted for in the breakdown above.*

# Chocolate Peanut Butter Protein Muffins

## Ingredients

1 Cup of Kodiak Protein

Pancake Mix 1 Large Egg

250 mL of Almond Milk

1/3 cup of chocolate chips

Optional:

1 Banana to garnish on top

Peanut Butter Spread  
organic on top

## Recipe

- 1 Preheat the oven to 350°F.
- 2 Measure out the necessary ingredients for the protein muffins, and keep them in separate bowls for easier prep and clean up.
- 3 In a separate bowl mix together the protein pancake mix, the almond milk, and the chocolate chips.
- 4 Get a muffin tray and add muffin tins into the tray and pour batter evenly into the tray.
- 5 Bake for about 13-15 minutes until nice and golden.
- 6 Remove from the oven and let the muffins cool for about 5- 7 minutes and top with desired fruit options or spread options

### ***Comment from Built with Science Member:***

*This recipe is a great option for someone on the go or someone looking to fill a sweet tooth for breakfast. A great alternative to pancakes in a simple muffin form! The toppings are optional but highly recommended! The calories and macros don't account for the banana and the peanut butter spread on top.*

# Vanilla Protein Pancakes

## Ingredients

1/3-Cup rolled oats  
(Quakers)

¾ Cup of egg whites

1 teaspoon of baking  
powder 1 teaspoon of  
vanilla extract

### Optional:

Cup of black coffee  
  
zero calories  
blueberry syrup

## Recipe

1. Measure out the necessary ingredients for the protein pancakes and keep them in separate bowls for easier prep and clean up.
2. Place rolled oats, egg whites, baking powder, and vanilla extra into a blender and mix on low speed to make the pancake batter.
3. Use a small griddle or non-stick pan and heat on medium for about 2 minutes to warm the griddle.
4. Cook on the griddle as you would for normal conventional pancakes for around 3-4 minutes on the first side until bubble appear and then flip and cook for another 2-3 minutes.
5. Remove from the griddle and enjoy with your choice of toppings and beverages.

### ***Comment from Built with Science Member:***

*This recipe is a great option for someone running the shred program. If you are looking to increase the protein for this recipe I would recommend adding a scoop of whey isolate protein to increase the protein macros for this dish.*

# High Carbohydrate Scrambled Eggs

## Ingredients

1 cup of egg whites

Salt and ground black pepper, to taste

Pam cooking spray

½ cup of mushrooms

½ cup of red onions

1 white potato

1 orange

## Recipe

Measure out the necessary ingredients for making the scrambled eggs.

- 1 Clean the white potato and pierce the skin in several times and place the potato in a microwave for about 4.5 minutes at high eat. They can also be baked in an oven, which is preheated to 300 degrees and baked for about 45-50 minutes.
- 2 Beat the cup of egg whites, salt and pepper in a bowl until well mixed.
- 3 Heat a non-stick pan over a medium heat until its warm spray with pam cooking spray and add your mushrooms and red onions and sauté for about 5 to 10 minutes.
- 4 Add in the egg mixture and gently pull the eggs across the pan, and fold the eggs until thickened and no liquid egg remains takes about 5 minutes in total time and remove from the stove and place onto a plate.
- 5 Peal an orange and place onto the plate with the eggs and potato's.

**Comment from Jeremy:** This recipe is a great option for someone running the build program. Trying to get a good amount of carbs and calories in every meal follows the build protocol. If you are on the shred I would remove the potatoes or just use a smaller serving size to lower the calorie content of the meal.

# Baked Chicken & Potatoes

## Ingredients

3.5 oz. chicken breast

Salt and ground black pepper, to taste

½ cup of spinach raw

12 oz. white potato

## Optional

Ketchup Sauce

## Recipe

Measure out the necessary ingredients for making the recipe.

- 1 Season the chicken breast with some salt and ground pepper and bake in a pre-heated oven at 350 degrees for about 12-15 minutes until fully cooked.
- 2 Bake the white potato at the same time as the chicken but for an additional 15-20 minutes of cooking time can use seasoning if you wish.
- 3 You can steam the spinach if you would like or eat it raw with the chicken and potatoes.

**Comment from Jeremy:** This recipe is a great option for someone running the build program or shred program. It's perfect for both categories as it fits both programs protocols, for those running the build you can up the amount of chicken for the recipe, and those running the shred program can adjust the amount of potatoes for the recipe.

# Miriam's Scottsdale Salad

## Ingredients

3 cups of raw spinach  
0.5 cups of raw cherry tomatoes  
1 oz. red onion  
3 oz. cucumber  
2 tablespoons of avocado green dressing  
2 oz. smoked salmon

## Recipe

Measure out the necessary ingredients in order to make the Scottsdale salad.

- 1 In a medium bowl, add the spinach, cherry tomatoes, red onion, cucumber, and avocado green dressing or a different dressing of your choice.
- 2 Gently mix together with a spoon until combined and well dressed in the dressing.
- 3 Add in the smoked salmon and enjoy!

**Comment from Built with Science Member:** This recipe is a great snack option that tastes absolutely amazing! If you are using any of the build programs you can add avocado and additional salmon for more calories and volume.
